as practicable, and that the chairman of this board, together with the county treasurer, be empowered to borrow from time to time, such sums as they may deem necessary. The committee, however, recommend that such loans be made, or continued upon such terms, as will enable the county to retire about \$30,000 yearly out of its revenues for the next three years, and your committee would further recommend that we levy the sum of \$135,000, which from our best information will require 75 cents on the \$100 valuation of the entire taxable property of the county.

And we would further recommend that the county clerk be authorized and instructed to extend upon the collectors' books of the several towns, for the current year according to law, such rate per cent, as shall produce the various taxes required, and certified to by the several proper officers.

All of which is respectfully submitted.
